Dear Sir:

Technology Center 2600

In response to the Office Action mailed October 3, 2002, Applicants submit the following amendment and response.

**In the Specification:**

Please replace the paragraph beginning at page 2, line 10 with the following rewritten paragraph:

Also illustrated in the prior art of Figure 1 is a Peripheral Component Interconnect (PCI) bus supporting conventional computer-type peripherals. Connected to the PCI bus of Figure 1 are a memory, a Central Processor Unit (CPU), and a video adapter. In order to support the reception and subsequent transmission of the transport stream to one of the system components, such as to the memory or the video adapter, a converter/PCI bridge has been used. The converter portion is necessary in order to change the transport stream into data packets capable of being transmitted across a system bus, such as through the PCI bridge. Such a conversion would
